

## Neta Scientific, Inc. Sustainable Procurement Policy

### POLICY BRIEF & PURPOSE

As the impact of procurement decisions on our environment increases, organizations need to implement sustainability in their supply chain.

Neta Scientific, Inc. is committed to sourcing and distributing sustainable products from our suppliers and driving awareness of responsible sourcing practices. As a long-term goal of contributing to more sustainable solutions, we apply the three pillars of sustainability: economic, social, and environmental. These pillars are an integral part of our procurement practices.

We actively partner with suppliers to define their core sustainability values in business operations and product production. Through our Sustainable Product Program, we focus on identifying products at the SKU level to showcase suppliers' supply chain innovations and offer a robust portfolio of products in support of our mutual customer initiatives.

Additionally, Neta Scientific, Inc. recognizes the [Sustainable Development Goals \(SDGs\)](#) adopted by the United Nations in 2015. The 17 SDGs should be a resource for all organizations to implement sustainable and impactful change in all areas.
